How your rate is built

Your pay, grossed up for tax, plus your costs, spread over paid hours.

Take-home you want	$50,000
Plus tax (SE and income)	$17,686
Profit you need before tax	**$67,686**
Plus business costs	$6,360
Revenue you need	**$74,046**

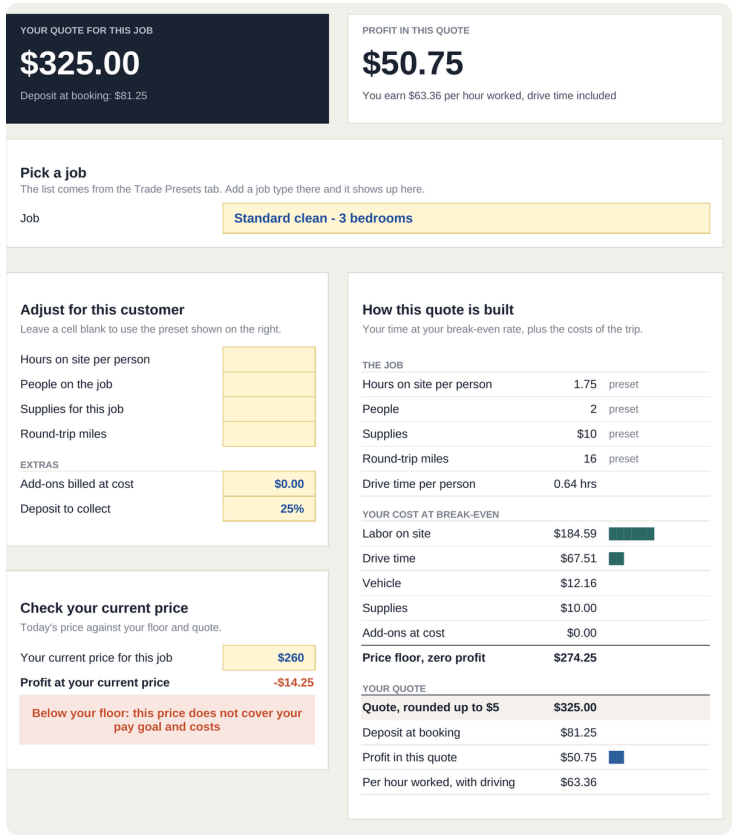

SPREAD OVER YOUR PAID HOURS

Paid hours per year	1,404
Break-even per paid hour	**$52.74**
Plus your profit margin	$9.31
Target rate per paid hour	**$62.05**

WHERE EACH PAID HOUR GOES

Your pay	$35.61
Tax	$12.60
Business costs	$4.53
Profit margin	$9.31

1 Your Numbers. Your pay goal, hours, monthly costs and taxes become a break-even rate ($52.74 an hour in this sample) and a target rate ($62.05) for every paid hour. The usual guess, pay divided by all hours, comes out $38.90 an hour too low.
