WHAT YOU GET

Your dashboard, built with your numbers.

What's in your dashboard

- Monthly profit and loss by channel: sales, discounts, returns, platform fees, product cost, shipping and ad spend
- Contribution margin per order and per unit
- Your best and worst products by margin (Standard and Premium)
- Trend charts you update each month by pasting new exports
- A one-page summary of what the numbers say, and a short update guide

Built by a finance leader with consumer-goods and e-commerce experience, with AI-assisted tools. Every number is checked before delivery.

How an order works

1. You answer a few questions and send your sales, fee and ad exports.
2. I map every line, build the dashboard and tie the totals back to your exports.

What to send

- What your brand sells, and on which channels
- Exports for the last 3 to 6 months: sales by order or product, fee or payout reports, and ad spend by channel
- Product cost per unit (landed cost) for each product, or your best estimate
- Excel, Google Sheets or both

Exports only; I never need your logins. Please remove customer names, emails and addresses.

Messy product costs? Send your best estimate per product. The file lists the five biggest product costs, so you know which to firm up first.

BASIC **One channel**
1 channel, monthly profit and loss, up to 25 products

STANDARD **Three channels**
Up to 3 channels, margin per product for up to 100 products

PREMIUM **Full brand**
Up to 5 channels, up to 300 products, margin waterfall by channel
